No. No. 30. 21/7/20

F. S. ORK 2 JUL 1920

Rec'd 4 Sub 22/7

4) Returned with compliments. It was not my intention to suggest that there has been any unnecessary delay on the part of the staff employed in conducting the audit of the food supply accounts. That would be beyond my competence to speak about. But what I do say is that, as far as audit reports received by me show, the work is not making sufficiently quick progress and that at this rate it cannot be completed for several months more. I therefore suggested that it might be desirable to put one more officer on this work. Mr. Subbaramaiah has gained much experience of this work and is now quite familar with its difficulties; and I think he is pushing on with the work as quickly as possible.

4) 2. It is, of course, quite desirable that the audit reports of all the depots in one District should be sent together. But there need not be any hard and fast rule about this. If all the accounts can be sent up together within a reasonable time well and good,

but, if not it is better that each is sent as soon as the audit is completed, the points for further scrutiny being noted for subsequent examination. For instance, the audit of the accounts of several depots in the Mysore District are said to have been completed up to the 30th June 1919. Except that of the Mysore City Municipal Depot none of the other audit reports have so far been received here although it is now more than a year since the audit was completed. Similarly the accounts of the Provincial grain depots at Mysore, Tumkur and Bangalore are said to have been audited, the former two till they were closed in July 1919 and the latter till the end of December 1919. These are said to be kept by for incorporation until the report of audit of my office, but if they had been sent to me earlier, the examination and disposal of the points raised could probably have been finished by now. The accounts of the Bowringpet depot are said to have been audited up to the end of December 1919. The report of this has not yet been received. The accounts of several other depots in the Kolar District have been audited up to the end of April 1919; and some depots in the Bangalore District up to the end of May 1920. All these reports may be arranged to be sent now so that the points raised may be examined and attended to.

3. In the Comptroller's letter reference is mad of differences between the debits in the Food C... Controller's office and the District depot accounts on one hand and in the receiving depots on the other.

G. R S. III-2]

General and Revenue Secretariat. | C.P File No. 6 of 1919

Serial No.

These differences are matters for examination and explanation. The existence of these differences need not delay the transmission of the reports.

3. Another point mentioned by the Comptroller repeatedly and referred to also in his letter under advertence is that prior to January 1920 each consignment was not accompanied by a regular invoice specifying quantity and cost. I am rather surprised that this matter should be brought up again and again since I have more than once explained that under the system which then existed whereby licensed importers were to consign goods direct from Madras to the several depots it was quite impossible for this office to send a regular invoice for each consignment. In all such cases the consignees were asked to debit themselves with the value of the quantity actually received by them at a rate which was previously intimated to them. When the quantity received by them was intimated to this office, they have been debited here with the cost calculated on exactly the same basis.

OFFICE OF THE COMPTROLLER TO THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

*Dated, Bangalore, the* 12th 1921

812
DIARY NO.

T. Satyaraj Chetty, Esq., B.A.,
~~M.A.,~~
*Offg. Comptroller to the Government of His Highness the Maharaja of Mysore.*

C.S. Balasundaram Iyer, Esq., B.A.,
Chief *Secretary to the Government of Mysore,*
*Department.*

SIR,

Adverting to Mr. B.T. Kesava Iyengar's D.O.NO, G:106/P.P. of t 3rd instant regarding the ~~^~~ progress said to be made in the audit of Food Supply Accounts, I have the honour to enclose herein the ~~two~~ tour programmes of the two sets of Food Supply Auditors now workir in the Bangalore and Chitaldrug Districts, from which it will be that the audit of the accounts of the Depots in these two District upto end of June 1920 will be completed before the close of the c month and that no avoidable delay is allowed to take place. The accounts of the Kolar District with the exception of the Goribidn and Bagepalli Talukes have also been audited upto end of April and some cases May also. Another set of Auditors have been working i the Food Controller's Office and their work too is likely to be c pleted before the close of the current month. The Special Office in charge of the Food Accounts is also moving with the Auditors b turns and every endeavour is being made to expedite the work as f as possible. Tumkur and Mysore Districts will be taken up before the close of the current month and arrangements made to complete t

them before the end of August and September nex /ely

2. The delay in the submission of the Audit Reports on hand is due to the fact that under the existing arrangement, which is not only convenient but will also enable Government to hav a better idea of the situation in each District, the Audit - Report for a District is submitted to Government after the accounts of all the Depots in the District are examined, and not piece-meal. I subjoin a statement showing the Depots, the accounts of which have been audited, side by side, with the particulars given by the Food Controller in the statement sen to Government with his letter No.13242 dated 21st June 1920, a copy of which has been forwarded to me. From this, it will be seen that in the Districts in which the Food Controller - shows ~~as~~ as no accounts have been audited, owing to the Audit Report for a District not having been yet sent to him, many of the Depots in the Districts have been inspected and the accounts audited. In this connection, I have to observe that large differences are noticed between the issues shown in the Food Controller's books and the Central or District Depots on the one hand and the credits of the receving Depots on the other, due to the omission prior to January 1920, on the part of the former to forward with each consignment a regular in- voice specifying quantity and cost, and to grant acknowledgme for moneys remitted. The reconciliation of these differences takes a considerable portion of the time of the Auditors.

3. A statement showing some of the differences noticed be- tween the Food Controller's books and those of the District Depots, as also those existing between the figures of the Dis- trict or Central Depot and the Taluk Depots is herewith sub- mitted for the information of Government.

I have the honour to be,

S i r,

Your most obedient servant,

J. Satyanarayana Rao

Comptroller.
